

EMPLOYEES GO THROUGH A TRANSITION PROCESS

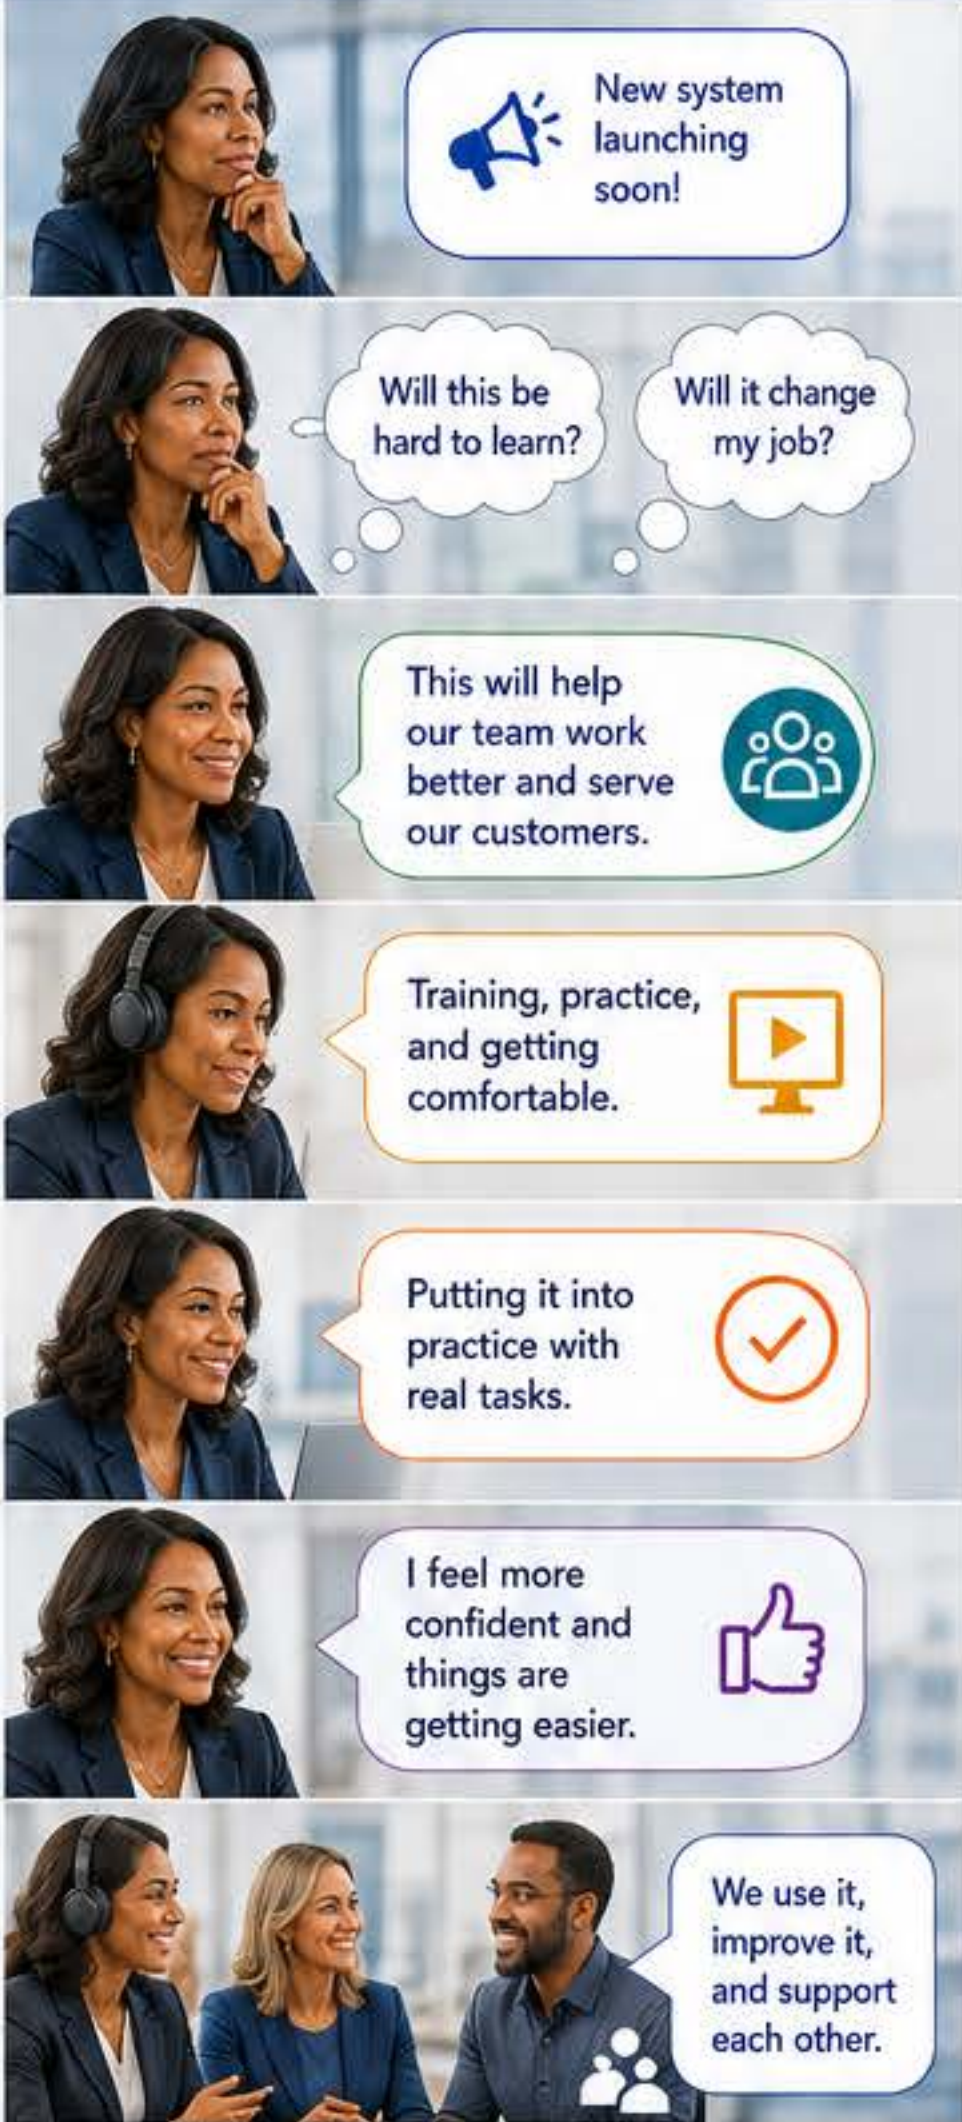

Change is the external event.
Transition is the internal adjustment.

It's *normal*
to move
through
stages.

EMPLOYEES MOVE THROUGH STAGES OF TRANSITION

- 1**  **AWARENESS**
"Something is changing."
- 2**  **CONCERN**
"How does this affect me?"
- 3**  **UNDERSTANDING**
"I see why this is happening."
- 4**  **LEARNING**
"I'm building the skill."
- 5**  **APPLICATION**
"I'm trying it in real work."
- 6**  **CONFIDENCE**
"I can do this now."
- 7**  **OWNERSHIP**
"This is how we work now."

Give
people
time,
support,
and
clarity
at every
stage.

When we understand the transition process,
change becomes progress and people move forward together.
